Adopt a heart-healthy lifestyle this year

A heart-healthy lifestyle requires more than just adopting a healthier diet. It's not only what you eat, but also what you **do** that makes for a healthy heart. This is reflected in the new guidelines offered by the American Heart Association (AHA):

Exercise and fitness

Regular physical activity has so many proven benefits, such as helping control weight and blood pressure and decreasing the risk for heart disease and stroke.

Drink in moderation

No more than one alcoholic drink per day for women and two drinks per day for men.

Eat healthfully

The AHA emphasizes cutting saturated fat, sugar and salt and keeping portions under control. A healthy diet emphasizes high intakes of fruits and vegetables, whole grains and lean meat or other protein.

Quit smoking

A heart-healthy lifestyle also includes not smoking and avoiding second-hand smoke and maintaining a body mass index (BMI) of less than 25 kg/m².

Smoking is the most preventable cause of premature death in this country. Smokers have a higher risk of developing many chronic disorders, including atherosclerosis that can lead to coronary heart disease and stroke.

A healthy lifestyle is the best weapon you have to fight cardiac disease. Remember, it's the overall pattern of choices you make that counts. Incorporating the above-mentioned steps into your lifestyle will reap long-term benefits to your overall health, especially your heart.

Beautiful Christmas Displays

This evening (12/11/2015), as we were driving home to Two Rivers from Appleton on Hwy 10, we hap-

pened to see some homes that were decorated in a subdivision on the north side of Hwy 10. So we took a little drive through the area and were so pleased with the light displays that we were seeing. Three cheers to these residents of Reedsville for a beautiful job. WELL DONE!

UNDERSTANDING THE ROLE METABOLISM PLAYS IN WEIGHT MANAGEMENT

Do you remember being able to eat anything you wanted when you were 20, and you didn't gain weight? Fast forward 30 years and it's a different story. So why could you get away with a sloppier diet in your 20's than you can during middle age? If you guess that it has to do with your metabolism, you're right.

What is your metabolism?

The simple explanation is that it is the way your body burns calories consumed from the foods you eat: but it's really more complex than that. It's also the breakdown of metabolic fuels present in the diet from the nutrients in the foods.

What happens to our metabolism as we age?

The main thing that happens is that mitochondria production in the cells seems to slow down with age.

Can I prevent or reverse this slowing process?

Exercise increases the number of mitochondria within the body, as well as their metabolic activity. We need to eat often so that our body doesn't start to conserve its energy into fat cells. When we don't eat regularly, it conserves energy that it thinks you might need to last a while rather than burning it. Due to modern diet practices of inconsistent and unhealthy eating patterns, as well as the relation of how the body stores fat, weight gain is usually a resulting consequence. Just as important as diet, you can never underestimate the importance of drinking lots of water when it comes to metabolic function.

T.O.P.S. - TAKE OFF POUNDS SENSIBLY

Our Reedsville TOPS chapter started off the New Year with each member setting a six month goal. These goals did not need to be weight loss related but just a goal important to each individual. All the goals were sealed in individual envelopes to be opened in six months. In the months ahead at our weekly meetings we will be reminded of our goals to help keep us motivated and focused on becoming a better person.

The Lean on Lakeshore challenge has begun. The Reedsville Team is motivated to become educated in exercise, food and healthier lifestyle options by taking advantage of many of the classes and educational events taking place during this 100 day challenge.

Go Team Reedsville!!!

Reedsville Alumni Association News

We are starting to plan for the 2016 Annual Banquet/Meeting and are working with the school on a project or two. You will need to wait for the annual newsletter in late summer to find out what we have in store.

During the months of January and February, the members of the board of directors do little for the association except to think of new ways to up our membership. One thing we are doing is trying to make sure we have an updated address on every person who graduated from Reedsville High School. Last month we started out with a list of 490 people we needed information on. Thank you to the people who contacted us with information. As of the time of the writing of this article our list is now down to 471, which is still a very long list.

For this month we are in need of addresses for 2 of our past scholarship recipients - from the class of 1995 – Sherry Schuh and from the class of 2002 Jesse Bolle. If you have information on these individuals we ask that you contact us by email at reedsvillealumni@hotmail.com or mailing to PO Box 431, Reedsville, WI 54230 to give us this information. We have the information on the other 105 recipients.

We are also working on the lists for the classes that will be celebrating their class reunions in 2016. The list of people we are looking for are people we were missing information on from their last reunion in 2011. Please contact us if you have information on the following – from the class of 1966 – Robert Herdina, Gerald Kane and Sharon (Haese) Lemke; from the class of 1971 – Karen (Schultz) Diedrich, Helen Polifka, Barbara Stedl, Carol Stefanik, Gary Wagner, Debra (Wilhelm) Willison, and Zachory Zeman; from the class of 1976 – Barbara (Skinkis) Bastian, Cynthia (Reznichek) Braun, Caren (Pankratz) Burke, Peggy (Sullivan) Evans, Joe Kochen, Tim Kostechka, Barbara Moede, Sandy (Knapp) Mraz, Nancy (Riesterer) Schwalbe, Cheryl Stenzl and Monte Strouf; from the class of 1981 – Dennis Preston and Lori Smith; from the class of 1986 – Cheryl (Miller) Davis, Alisa (Otto) Ferereisen, James Kralavet, Kim (Haas) Mangin and Stuart Schneider. If these people did not graduate with your class, we want this information also. The lists from the classes of 1991, 1996, 2001 and 2006 are a bit long. Please, anybody from these classes working on your reunions, contact us as soon as possible. We can work together to find information on your classmates. If we do not hear from anybody soon, the list of names will be published in future months.

Thanks to the approximately 4% who support your organization. You know who you are.
