SUNRISE HORSE FARM

This evening during feeding time, in the barn walked Smokey who apparently must have been under the roof as the snow was melting because his mane was all wet. However, at some point he also visited a burdock plant and his hair was standing straight up with the burdocks in it!! Smokey is a curious, hilarious horse who is also impatient and when his food does not get to him as he sees fit, he grinds his teeth on the gate and then stomps on the gate. As I looked over at him, he did his usual tongue trick where he whirls his tongue around the side of his mouth and the more you laugh, the more he continues. Smokey is 26 this year, however, he thinks he is 3 and everyone loves his antics. He is a class act!

Spencer, although he is blind, is quiet and gentle and waits patiently for his food to come. He never ceases to amaze me of the resiliency he possesses. He gets himself into the barn and out, finds the water tank, and if he bumps into something, just backs up and tries again. Spencer is a role model for the participants of the program here at Sunrise because some of them have had a few bumps in life and are able to see how Spencer keeps trying and never gives up.

For the year of 2019 we had 330 visits by children, teens and some a bit older. With Laura's help we were able to offer training for other adults to be part of our program here at Sunrise. We will offer more training in February. Be a part of something that brings out the best in others and give us a hand. Check your schedule and contact us by phone or email.

QEMP - ALL FOUR PRODUCTS ARE NOW AVAILABLE FROM NATURE'S SUNSHINE

This is some of the information available about Qemp:
WHAT IS CBD? CBD, also known as cannabidiol, is a compound commonly found in the hemp plant that can activate the endocannabinoid system, which in turn regulates the optimization of several other body systems.
WHAT IS THE THC CONTENT? The Qemp products have 0.3% THC or less.
IS IT MARIJUANA? No, hemp is not the same as marijuana. Hemp has 0.3% THC or less which makes hemp ideal for making our whole spectrum hemp extract.
WHAT IS THE ENDOCANNABINOID SYSTEM? The ECS is a network of receptors found throughout the body; its main function is to help optimize all of the other body systems.
ECS & CBD
The ECS helps to optimize our internal body systems and the naturally occurring CBD in our whole spectrum hemp extract helps to activate the ECS receptor sites. This activation helps them to be more efficient and effective resulting in peak performance. The CBD also helps to block the enzymes responsible for breaking down endocannabinoids (ECS).
PRODUCTS AVAILABLE: DAILY USE CBD OIL (17 MG.), DAILY USE CBD OIL (30 MG.), DAYTIME FORMULA (25 MG PLUS HERBS), NIGHTTIME FORMULA (375 MG PLUS HERBS). These products are sustainably sourced, non-GMO and Vegan friendly.
